Between 1000 and 1400 on 17 July 1955, 2 MiG-15s, 1 IL-28 and 3 Li-2s were observed at Bad Voeslau airfield. There was a 2/10 overcast, sunny weather, a westerly wind of about 3 km/h, and good visibility. No air activity was conducted, nor was other activity ~~observed~~, except that about 50 Soviet soldiers armed with submachine guns patrolled the area between Baden and Bad Voeslau in groups of two men. The purpose of this activity could not be determined.

Comment. The occupation of Bad Voeslau airfield has apparently not changed since May and June 1955.
